Martin, The pricing came out for the new Bobcat ~~S64~~ model. They are replacing the 570 and 590 with one machine. It is priced, and specs are more comparable to the 590. This makes it quite a jump in price from the 570. I've attached my quote if you want to do a 570 again. My educated guess is that the new S64 in August will be an additional \$1,500.00.

Marty,

So there are some changes in models with Bobcat Company currently. I have priced you a S590 currently because that is all I have. There is no factory available on S570 and the new models haven't been released yet.

Therefore I can only give you a price on the S590 currently. We have changed our program and we would be rolling for \$10 per hour and you normally put on 180 to 200 hrs.

If you have any questions please feel free to give me a call

Thanks
