May 14, 2020

Dear Green Lake County Residents:

The WI Supreme Court voted yesterday to invalidate the statewide Safer at Home Order issued by the WI Department of Health Services. While this decision immediately ended the emergency order, COVID 19 has not disappeared and it remains in our community.

After careful review by the Incident Command Team, we have developed a plan that provides guidance and education to reduce risks and assurance that by working together, we can start returning to the “new normal”. We feel these recommendations will move our county forward if individuals and businesses follow these recommendations. We want to continue to move forward, but want the community to know that we may have to move back and tighten up these rules if we see an increase in cases of the disease. And we will relax the order as the condition improves. This is a very challenging time and my role as Health Officer is to minimize the spread of this disease, especially with our most vulnerable populations. We feel that the WI Economic Development Corporation’s guidance will be very helpful in moving us forward. There are a number of strategies that need to be implemented by our businesses and community. We encourage you to go to www.wedc.org to review these recommendations.

For questions or concerns, contact the Green Lake County Health Department at 920-294-4070. As we continue to update our plan based on the changing metrics of this disease progression, we will post them on the Green Lake County website at www.co.green-lake.wi.us and share with our local media outlets.

Finally, I want to thank all of our community members and businesses for their tremendous efforts in trying to minimize the spread in our communities. We need to continue many of these new habits to stay safe.

Stay Safe,
