Water/Wastewater Report

On Tuesday August 27th we had a water main break in front of the Highschool. I was notified at about 1:30 pm of water and had Kinas start to dig about 3:00 pm. We had all the repairs done by 8:00 pm. The school was the only building without water during that time. There was concrete as well as asphalt removed. I am getting bids for the repairs and will have them for next months meeting.
